BLAMES PHILOSOPHER FOR WORLD STRUGGLE

Gerryman Says Nietzsche's Teachings Were Against Democracy.

(By the International News Service.)

Sheboygan, Wis., July 12.—To the German philosopher Nietzsche and to the noted historian Treitschke must be attributed, to a great extent, the causes of the world war.

This is the opinion of Rev. David Thomas, who is spreading broadcast throughout the State and nation a fervent plea to the loyal Americans of German birth or descent to save themselves and their children of present and coming generations from social and racial ostracism such as the Jews have suffered for nineteen centuries.

"We are today at war with the greatest military power the world has ever known. It knows no justice, no right save the right that might makes. Back of this cruel power lies a philosophy and spiritual attitude which make it possible. The fathers of philosophy and spiritual attitude are Nietzsche and Treitschke. To Nietzsche all the Christian virtues were weaknesses. He scored democracy and proclaimed that the masses of humans beings must serve the few from whence will come the superman."

New Beast of Burden May Supplant the Mule

Mount Vernon, Ind., July 12.—The zebra may succeed the mule as a beast of burden, as the result of experiments conducted by Dr. W. E. Hastings for five years, at a cost of \$10,000.

Believing that a hybrid of an American mare and a zebra would be far superior to the mule, Dr. Hastings went to Hamburg, Germany, and purchased two fine specimens. The female died, however, after a few months, and now weighs 1,000 pounds.

The experiment, experimented with the cross of the zebra and the American can mare several years ago and produced one zebra, but discontinued the experiment.

FLOUR SUPPLY SHRINKS.

Heavy export shipments of wheat and flour have resulted in a decrease of 1,572,000 bushels in the visible supply, a shrinkage of 11 per cent under last week. The estimate of the United States crop, however, balances this to some extent. It shows an increase of 3.4 per cent over the same figures of last year.

Large Peach Crop Predicted.

Martinsburg, W. Va., July 12.—West Virginia's peach crop this year will be the largest in history of the State. Boy Scouts have come forward to help in the labor scarcity. Officials of the railroads have assured the growers that adequate transportation can be furnished.

An attachment for clocks that a Minnesota inventor has patented enables them to change the dates on a calendar at each midnight.
